

# Home Health Care

Home-based care + support  
custom designed to optimize  
independence and recovery

*new!*

# bringing home

THE SCIENCE OF CARING<sup>®</sup>

## We've Expanded Our Continuum to Help You Head Home With Confidence.

Let our Home Health Care team help you make a smooth transition home. Whether your goal is to live independently or to just spend the weekend at home with your family, our experienced team of brain and spinal cord injury specialists provide customized care to keep your recovery moving forward.

- Person-Centered Care + Support to Maximize Safety and Recovery
- Functionally-Based Goals + Daily Documentation for Optimal Outcomes
- Psychological Counseling + Assessments
- Independent Living Skills Training
- Community Integration Support
- Medication Management
- Pediatric In-home Behavioral Support
